

Webbers Post

Park in the huge carpark at **SS 43.9 90.3** easily found on map OL 9 marked by the “viewpoint” sign. Draw in to the carpark and park parallel to the lane so that the viewpoint over Horner wood is slightly behind you and to your Left.

Walk straight ahead on the gravelled path marked “easy access” or use the one parallel to this....you are now on the Coleridge Way heading NNW (this long distance footpath is waymarked with a feather, offering a reassuring tick that you are in the right place!)

Follow the path through heather, gorse and open woodland following the feather, Coleridge Way and then for Chapel Cross.

Curve around to the Right, as “Windsor Walk” comes in from the Left .

** here you can take Lord Leutenants Ride down to the 2 tearooms and public conveniences at Horner village, before returning via the Coleridge Way to this point.*

Continue on your way signposted “Chapel Cross” and explore the remains of this little wayside chapel, rapidly being covered over by grass and a lovely place for a picnic.

Enjoy distant views of the white painted Selworthy Church from the adjacent gateway before heading across the crossroads to take the bridleway South signposted Brockwell.

*Here you can double your distance by continuing along the valley to Brockwell and taking any one of the paths that lead steeply uphill to join the well walked “Dunster path” shown clearly on your map, turn Right along it to return to Webbers Post.

Otherwise, at the beautiful bulging tree

At the crossing paths turn R for Webbers Post and swing up through the woods with a pretty stream running down the hill on your left.

If you're lucky these Exmoor ponies will be hanging around the small secondary parking area here!

Head across the lane and back to the main carpark to your car.

From the crosspaths at the tree you can also detour down and back to the pretty church and village of Luccombe where you may be lucky and catch an event at the village hall, otherwise there are no facilities.
